

Polyethylene Foam Products

Automated Solutions provides reliable, high-quality foam products. Our foam is:

- Non-telescoped
- Highly flexible
- Evenly rolled
- Uniform in cell structure, with gentle waves on the surface
- The same size from one roll to the next

Our experienced foam extruding team gives us the ability to deliver *consistent* and *reliable* rolls every single time. That's the Automated Solutions difference.

Our Foam Features and Your Benefits

Made from 100% low-density polyethylene (LDPE). LDPE is a highly flexible, adaptable material. Use it for cushioning, interleaving, or surface protection. Our foam is durable and closed-cell.

Strong compression and cushioning. The foam maintains its thickness and can protect your shipments by reducing shock and vibration during transport.

Consistent from roll to roll. Say goodbye to telescoped rolls, inconsistent measurements, scrap foam, and that “corrugated metal” look. We deliver top-shelf, uniform foam – roll after roll after roll, just the way you want it.

Lightweight. Reduce your total package weight and, in turn, your shipping costs. Lightweight foam is also an indicator of quality in service. Inexperienced foam suppliers tend to deliver heavy foam.

Tear-resistant. Our foam has high tensile and tear strength so it withstands heavy use for a long time.

Strong cushioning / compression. Protect your shipments. Reduce shock and vibration during transport.

Various protection options. Product line going from 1/32” to 1/2” thicknesses, roll widths from 48” to 72” and beyond (up to 130”), high density option, anti-static option, and cold seal option (our Wrap-It cohesive foam product line) are the variations available for your specific needs.

Recyclable as recycling code . LDPE can be recycled into trash can liners and cans, compost bins, shipping envelopes, paneling, lumber, landscaping ties, and floor tile.

Thickness in Inches	Standard Length in Feet	Diameter in Inches (+/- 10%)	48" Bundle SF / bdl	60" Bundle SF / bdl	72" Bundle SF/ bdl
1/32	2,000	32	8,000	10,000	12,000
1/16	1,250	34	5,000	6,250	7,500
3/32	750	32	3,000	3,750	4,500
1/8	550	33	2,200	2,750	3,300
3/16	350	32	1,400	1,750	2,100
1/4	250	32	1,000	1,250	1,500
3/8	150	30	600		
1/2	125	32	500
